

HIGH TECHNOLOGY BUSINESS MANAGEMENT

38.04.02MANAGEMENT

**THIS MASTER'S PROGRAMME
PROVIDES OPPORTUNITY TO
ACQUIRE KNOWLEDGE AND SKILLS OF
MANAGEMENT OF HI-TECH COMPANIES**

PROGRAM FEATURES

STUDIES CONSIST OF 3
MAJOR PARTS :

- managerial disciplines (including Strategic Management, Financial Management, Investment Analysis, Project Management, E-commerce, Corporate Finance, etc.),
- hi-tech and engineering innovations disciplines (including 3D Printing, High-Technology Review, Engineering Change Management, etc.),
- practical trainings and internship.

The program is taught in English.

It is a unique programme that combines managerial and technical studies due to the alliance of the two institutes of Samara National Research University – Institute of Economics and Management and Institute of Engine and Power Plant Engineering. The program aims to give a solid grounding in managerial disciplines as well as the understanding and overview of engineering processes at hi-tech companies.
